Creating the Project Application Project

Project Applicants must create a project for the specific Application in e-snaps on the "Projects" screen. Creating a project is an intermediate step; organizations do NOT enter the Application from the "Projects" screen to complete the Application screens. [That step will occur on the "Submissions" screen.]

Once the Applicant "creates" the project, it will appear on this screen and the specific application name, either "New Project Application," "Renewal Project Application," "CoC Planning Application," "UFA Costs Application", will appear under the "Funding Opportunity Name" column.

Make sure you create your project under the correct Funding Opportunity Name.

When creating the project, make sure the "Funding Opportunity Name" selected is New Project Application, Renewal Project Application, or UFA Costs Application.

If you select the incorrect Funding Opportunity Name, you will not have the necessary forms for the Project Application.
