PIT Count & PMC

- *Interests were peaked re: increasing quality of data via increasing the number of people surveyed.*
- *Group also favored using **heat maps** again but with more lead time given to Team Captains to support opportunities to connect/prepare.*
- *Areas of Concern re: changing the methodology*
 - *Financial cost*
 - *Time needed to prepare*
 - *Impact on data*

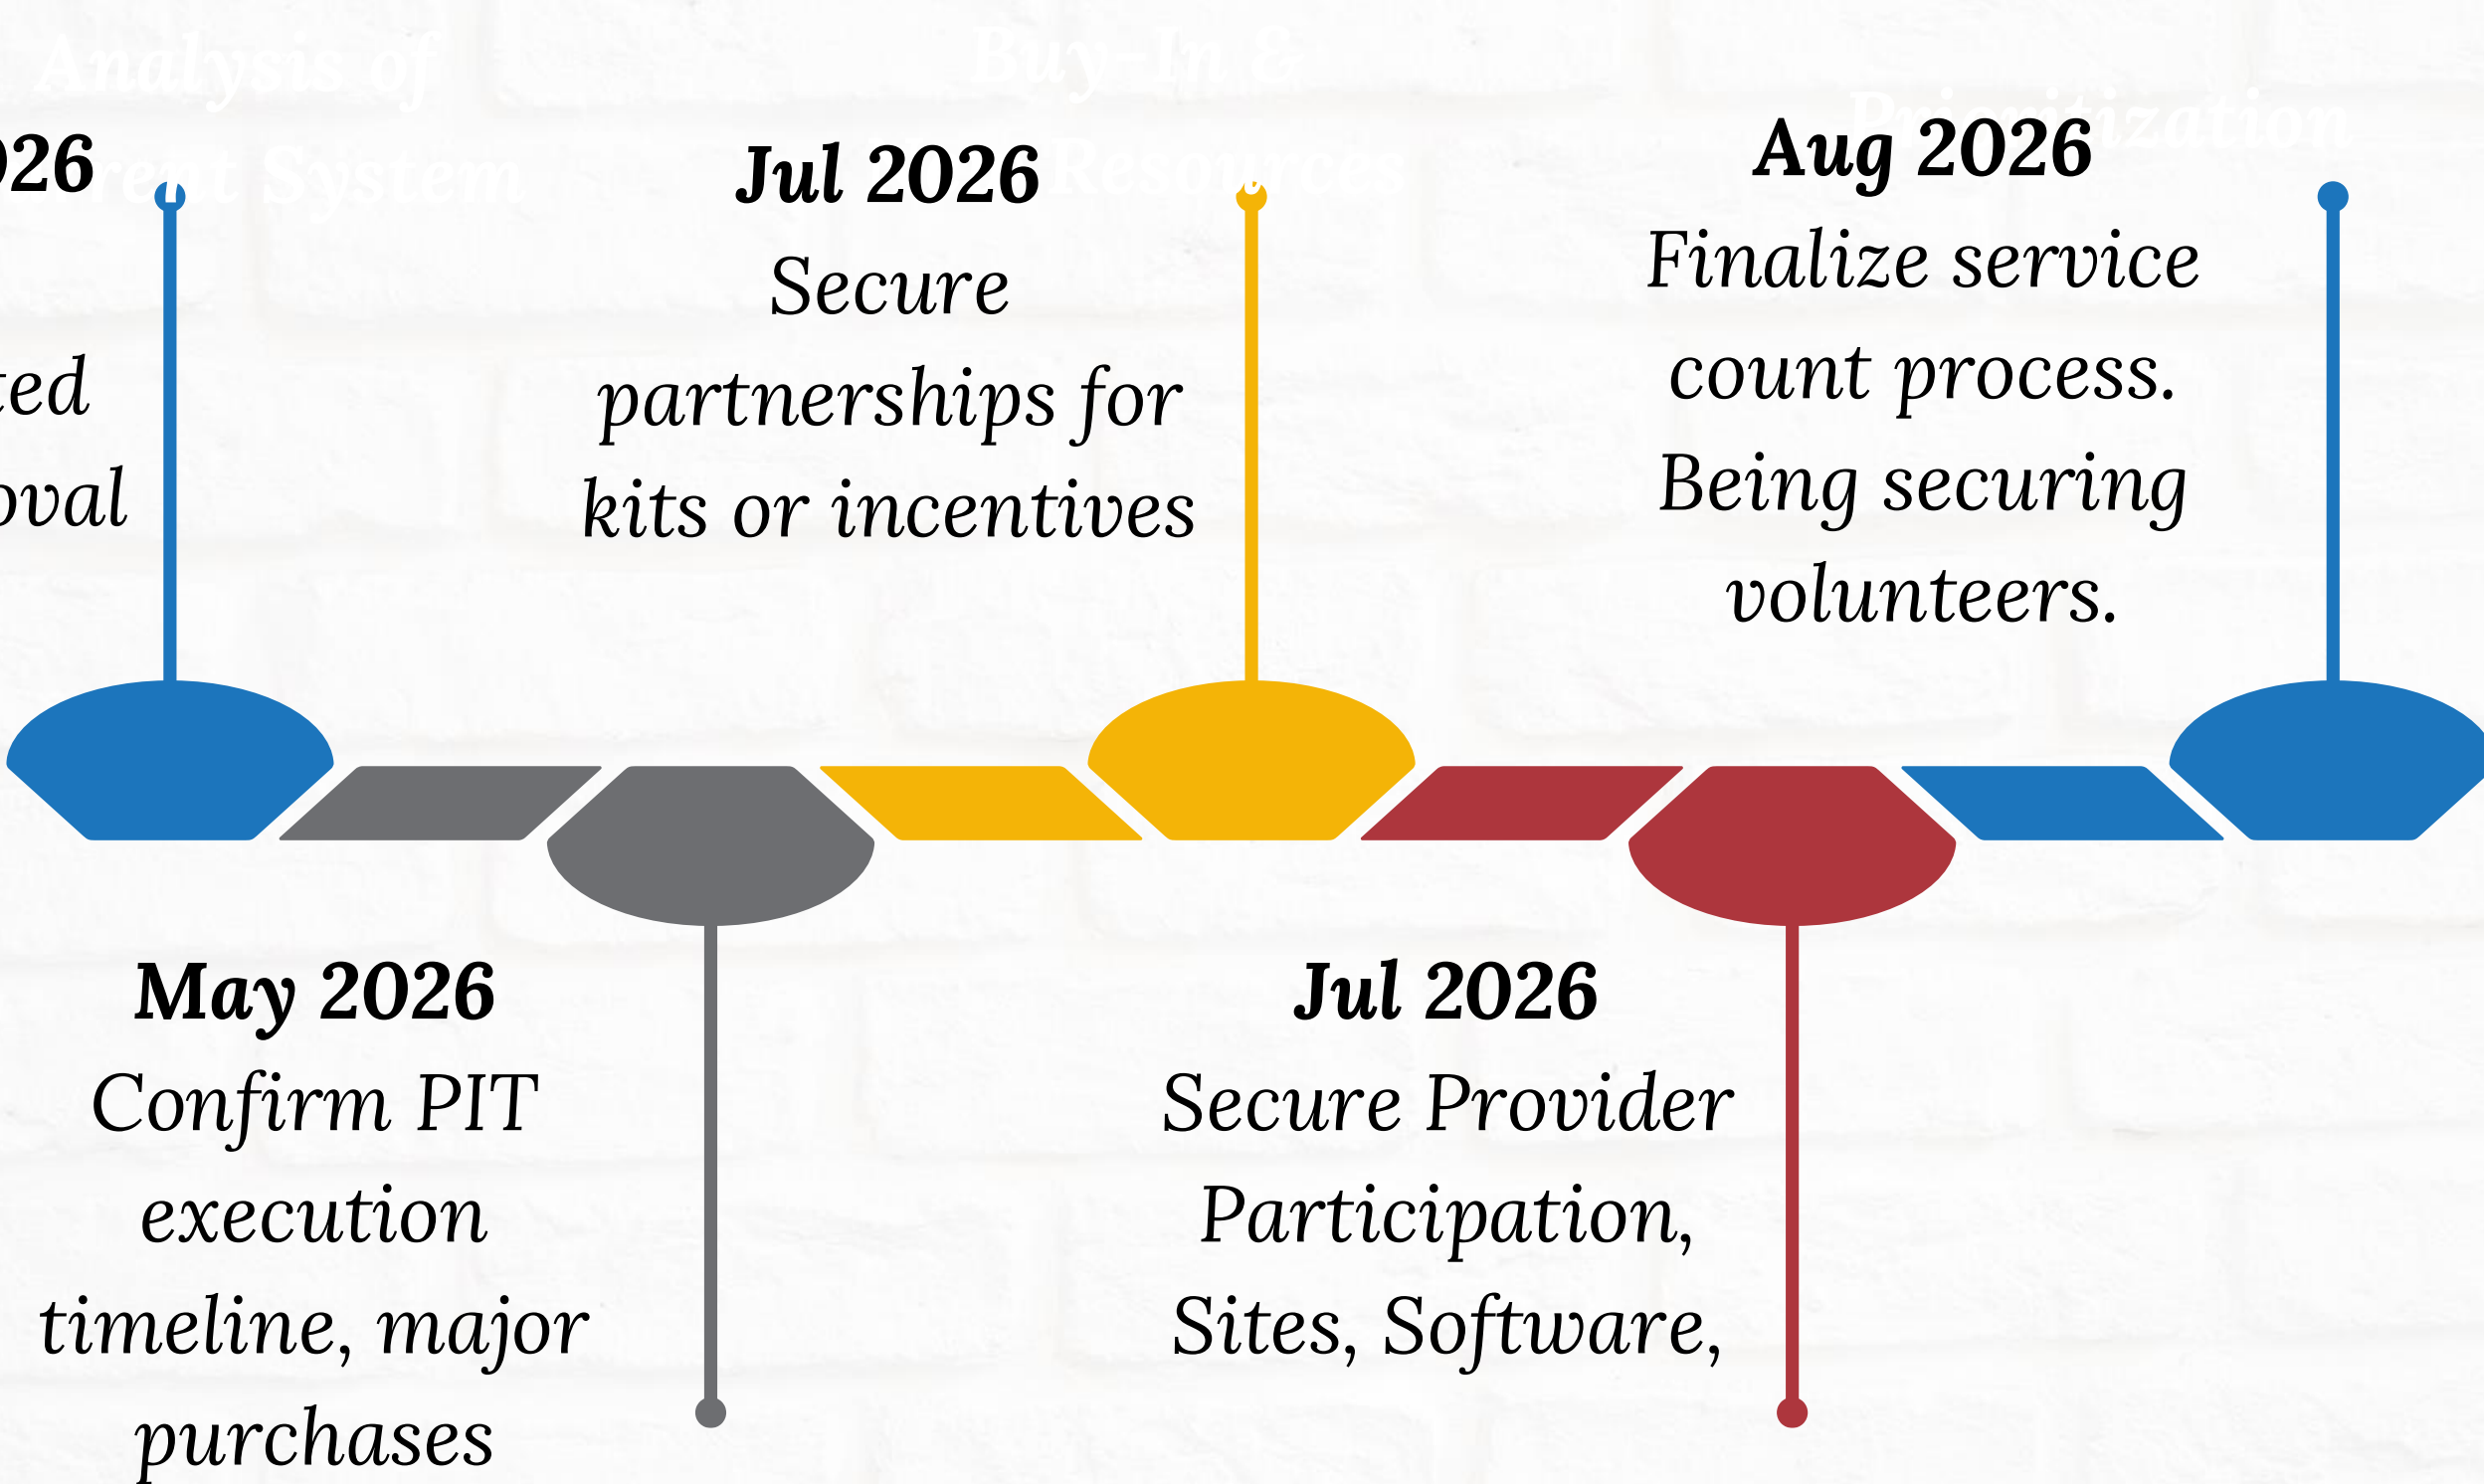

PMC Decision

- *Maintain the previous methodology and continue our use of heat maps to guide volunteers while canvassing.*
- *This is a full census, overnight count.*
- *Date is TBD.*
 - *Most likely the early morning hours of Jan. 23rd or 29th.*

Timeline for Current Methodology (pt. 1)

April/March 2026
Methodology
Decided submitted
to HUD for Approval

May 2026
Confirm PIT
execution
timeline, major
purchases

Jul 2026
Secure
partnerships for
kits or incentives

Jul 2026
Secure Provider
Participation,
Sites, Software,

Aug 2026
Finalize service
count process.
Being securing
volunteers.

Timeline for Current Methodology (pt. 2)

Sept 2026
*Finalize training
for new process*
